

SUBSCRIBE TO SOLDIERS' FUND; A WORTHY CAUSE

(By L. B. Woodruff)

The National Guard of the State of Wisconsin and other states has by order of the President of the United States been called to the colors for active service and actuated by patriotism and a sense of duty the members of the National Guard, in responding to the President's call, not only offer themselves to the service of their country, but also forego their usual enjoyments and the means of livelihood of themselves and their families, and the sacrifice thus demanded and unhesitatingly accepted by the few, is for the benefit of all.

The burdens incident to military service should not be permitted to rest exclusively upon those who render it, but should, so far as possible, be distributed among the people, in order that those who respond to the call of patriotism shall not suffer from loss of employment and earnings, nor their families be deprived of support.

The Advancement Association of Rhinelander is submitting a plan to the citizens of our city whereby a sufficient fund of money will be subscribed, to meet the needs of those who will require this assistance.

A committee has been appointed consisting of three members of the association and two from the V. N. A., said committee to have full charge of all monies subscribed and to distribute same to those who are entitled, at such time or times, as in their judgment, it becomes necessary. The worthiness of the movement is unquestioned and should meet the hearty response of every patriotic citizen.

THE SOLDIERS' FUND

I wish to take advantage of the opportunity offered by the "Relief Committee" to aid in caring for such families of soldiers of the Wisconsin National Guard as may be left in want by the departure of the men for mobilization camps or the Mexican border.

For this purpose I pledge myself to give \$..... each month for a period of twelve months. My understanding is that this money is to be used only for the aid of dependents whose needs are known to the relief committee and whose names will not be published under any circumstances. This pledge to become void in the event of the National Guards' return or of adequate state or federal action for the relief of these families.

I am willing to have the secretary of the Relief Committee notify me each month by mail of this obligation.

BARNES CIRCUS JUST ORDINARY

That Al. G. Barnes' wild animal circus is traveling largely this season on its past reputation was evident from the performance given by the show in Rhinelander Thursday. The program, which consisted entirely of animal acts, was very ordinary and not on a par with that presented by the same show here two years ago. No new features had been added and the various beasts, while well trained, did the same old stunts seen here before.

To be true the circus was more or less handicapped through shortage of help and the late hour of arrival here. About fifty canvas men, teamsters and other workers quit the show at Marshfield and Wausau. The train did not reach this city from Wausau until after ten o'clock Thursday morning; there was no street parade and it was not until nearly four o'clock that the afternoon performance commenced. The menagerie top was not raised, much to the disappointment of the patrons who had expected to see the usual wild animal display. The crowd at the afternoon performance was one of the largest ever in attendance at a circus here. The management was pleased with the patronage.

It required all night for the show to pack up and get loaded on the cars. The train did not depart for Antigo until 5:05 Friday morning.

BIG EAGLE MEET

Ten thousand visitors are said to have attended the state convention of Eagles in Grand Rapids on Thursday, the final day. J. C. Teal, one of the Rhinelander aerie who was present at the convention, stated that it was one of the most enjoyable and all around successful Eagle gatherings he had ever attended.

Every conceivable kind of wholesome entertainment was provided for the crowd. Grand Rapids birds are entitled to the crown when it comes to dishing out hospitality. In the big parade Thursday prizes were awarded as follows: Wausau 1st, Milwaukee 2nd, Marshfield 3rd, Merrill 4th, Racine

5th. LaCrosse 6th. Racine was selected for the 1917 convention. State officers elected were: C. W. Hathaway, Beaver Dam, President. M. H. Niesen, Kaukauna, Vice-Pres. C. A. Dittman, LaCrosse, Secretary. Richard A. Blockorn, Antigo, Treasurer.

TEN GUARDS COME HOME FROM CAMP

Men Are Rejected For Failure To Pass Government Physical Tests

Unable to successfully pass the rigid physical examination conducted at Camp Douglas by the government physicians ten members of Co. L of this city were rejected for service. The men arrived in Rhinelander Monday night. They are 1st Serg. A. J. Bouffon, Artificer Joe White and Privates Carl Hanson, Jerome Bissonette, Frank Wicher, George Arcand, Arthur Richter, Otto Statts, Andrew McLean and Frank Jackson.

A number of Rhinelander people visited Camp Douglas Sunday, including Mr. and Mrs. L. A. Leadbetter, J. H. O'Melia, A. J. O'Melia, Dr. L. E. Schiek and Al. Lytle. They found the men of Co. L in excellent spirits and evidently enjoying camp life. The men are provided with wholesome food, well cooked, and there is plenty of it. All appear anxious to leave for the border and frequent bets are being made as to the date of enlistment.

Lieut. Leadbetter tells a story on "Buffalo Bill," one of Co. L, who told friends at Camp Douglas Sunday night that he had had two kinds of duck for supper. When asked for an explanation "Buffalo Bill" replied, "I ducked right up and ducked right back again."

TO THE PUBLIC

We have three sons members of Co. L, but contrary to previous reports, we were not glad to part with these boys and we would gladly have kept them home could we have done so. Like all parents we love our children dearly and sincerely regret that present conditions compel them to leave us.

All "Reasonably Ready" Units Will Start For The Border Immediately

Chicago, June 28.—Orders were issued today by Maj. Gen. Thomas H. Barry, in command of the central department, U. S. A., for the immediate movement to the border of all units of the Illinois, Missouri, Kansas and Wisconsin National guard which are "reasonably ready."

The following statement was issued at Gen. Barry's office: "Orders have been issued directing the dispatch of all units in Illinois, Kansas, Missouri and Wisconsin, when mustered in, examined and reasonably ready. The Illinois cavalry will go to Brownsville, Tex. All other Illinois troops will go to Eagle Pass, Tex. Missouri troops will go to Laredo, Tex. Wisconsin troops will go to San Antonio, Tex. Other troops will be dispatched whenever "reasonably ready."

In order to facilitate matters, the troops will entrain without waiting for further instructions, according to orders sent to mobilization points in Illinois, Kansas and Missouri. The commanding officers will depart the time the troops start.

LEADBETTER WILL ENLIST SOLDIERS

Former Lieutenant Is Restored To Service To Get New Guardsmen

L. A. Leadbetter, formerly first lieutenant of Company L, has again been assigned to active service and will be stationed in Rhinelander in the capacity of recruiting officer. From Adj. General Holway's office comes a second urgent request for men for the Wisconsin National Guard and Lieut. Leadbetter has been ordered to enlist fifty men to be retained at home to await further instructions. A copy of Adj. General Holway's order reads as follows:

"Lieut. L. A. Leadbetter, W. N. G., retired, is hereby restored to active duty in his retired rank during the absence of the company in the United States service.

"He will be required to act as local recruiting officer and is authorized to enlist fifty men to be held at home as National guardsmen until further orders.

"Further detailed instructions will issue from this office and from the chief quartermaster.

"By command of the governor: ORLANDO HOLWAY.

"The Adj. Gen., Chief of Staff, Lieut. Leadbetter states that he will be at the Armory each afternoon from 4 to 6 and each evening from 7 to 8 for the purpose of receiving recruits. He will endeavor to secure the fifty men requested in Adj. General Holway's order.

As soon as recruits have enlisted they will be given instructions in drilling regularly throughout the week. According to Lieut. Leadbetter men will not be required to give up their positions until actually called to Camp Douglas. Whether or not the men will be ordered to Camp depends almost wholly on future developments in the Mexican situation.

Lieut. Leadbetter asserts that Indians who wish to enlist will be accepted on the same physical basis as white men. It was rumored here a few days ago that Indians would not be taken into the service, but this is absolutely untrue. Three Indians from the Lac du Flambeau reservation came to Rhinelander Saturday to enlist but owing to a misunderstanding, which has since been adjusted, were not accepted.

Lieut. Leadbetter urges all who possibly can to join the new company which he is about to organize.

No person under 18 years of age will be enlisted, reenlisted, or accepted with a view to enlistment, and minors between the ages of 18 and 21 years must not be enlisted, nor accepted with a view to enlistment, without the written consent of the father, only surviving parent, or legally appointed guardian, to the minor's enlistment.

CHILDREN'S DAY EXERCISES Children's Day program at the First Baptist church at 11 o'clock Sunday morning. Everybody cordially invited.

"For the cause that lacks assist-
ance;
For the wrong that needs resist-
ance;
For the future in the distance
And the good that we can do."

The government is deluged with
offers of services from ex-officers
of the National Guard. Would it
not be a fine thing to form a few
companies of these former lieut-
enants and captains and rush them
into Mexico. We feel sure that
they would be able to put old Car-
ranza out of business at once.

The annual meetings in the var-
ious towns should be held Monday
evening, July 3rd at 8 o'clock, at
which time, the school officers
whose terms expire, should be elec-
ted. Any office being filled by ap-
pointment should be filled for the
balance of the term by election at
the annual meeting.

In nearly all districts, the clerk's
time expires and a new clerk
should be elected to fill this place.
The voters should choose com-
petent officials and not be led by
the fellow who wishes the job for
his own benefit. In most cases it
is best to select officers who have
children and are directly interest-
ed in the school.

STEVENS RIGHT MAN

As we understand, Senator W.
T. Stevens will again be a candi-
date at the primaries for the re-
publican nomination as State Sen-
ator. Although Senator Stevens
has always been a loyal supporter
of Senator LaFollette, some rad-
ical progressives feel dissatisfied
with his stand, thinking he is not
a good progressive. The amusing
thing is some stalwarts are dissat-
isfied with Mr. Stevens and have
talked some of putting up a stal-
wart candidate. Many people of
both factions think a man must be
all right that the radicals of both
sides are not entirely satisfied
with. Senator Stevens has al-
ways been active for anything that
was for the benefit of his district
and northern Wisconsin.

All things considered, we believe
Mr. Stevens is closer to the people,
knows better what they want than
any other man we could elect.
More, the Senator has had expe-
rience and knows the ropes at Ma-
dison and thereby has a great ad-
vantage over a new man in getting
things through the legislature for
his district. Under all conditions,
we believe the people will be bet-
ter served by Senator Stevens'
re-nomination and re-election.

HUSTING'S VIEW

THE nomination of C. E. Hughes,
his personal statement, and the Re-
publican platform are all things
which the Democrats are ready to
meet, declared Senator P. O. Husting.

"Let the people decide the issue.
Let them decide whether they want
to remove a president who has
served them faithfully and well,
and elect another in his place at
the behest of organizations of alien
sympathies, who appear to be
more concerned about the welfare
of foreign countries than they are
about the welfare of their own,"
the senator said.

"I think Mr. Hughes' statement
on the American question is as
vague as the Republican platform.
He certainly has taken pains not
to offend the German-American
group, which claims to have nomi-
nated him.

"This is the gauntlet thrown
down to the Democratic party by
an organization formed avowedly
and solely for the purpose of pun-
ishing a president who has sought
to protect the lives and rights of
American citizens, and to reward
a party which has subserviently
yielded to the dictates of this or-
ganization, both as to its platform
and its candidates.

EMBARGO; PRO-GERMAN OR- GANS

OF all the politicians who have
taken up the pro-German demand
for an embargo, Senator LaFollette
alone has kept the faith to the very
end. Gov. Philipp, after he had
talked all over the state in favor of
an embargo, became silent and did
nothing regarding it when the Re-
publican state convention, which
he controlled on all other points,
met in Madison.

In the Progressive Republican
state conference, on the other hand,
Senator LaFollette again spoke out
openly in favor of an embargo.
Moreover, in connection with the
Republican national convention,
Senator LaFollette urged his fol-
lowers to adopt a declaration for
legislation looking to the laying of
an embargo.

There is another interesting test
coming. Senator LaFollette stood
for an embargo to the very end.
The Philipp Republican candidate
against him, M. G. Jeffris, has said
not a word on the subject of an em-
bargo. In these circumstances,
whom will those pro-German, pro-
embargo advocates, the Milwaukee
Free Press and The Germania-Her-
ald, support for senator? Will they
urge the re-election of Senator La-
Follette, who favors an embargo,
or will they try to elect Mr. Jeffris,
who is not for an embargo? In
other words, are they sincere in
urging an embargo or are they still
playing politics with the issue in
an effort to fool citizens of German
blood? Are they, like Gov. Philipp
going to turn tail and run away
from the question when the oppor-
tunity to make good presents itself
to them?

Any man who cares more for hu-
man life than for the big dollar
should favor an embargo.

CARRANZA FREES SOLDIERS

Washington, June 29.—It is now
considered that all danger of an
immediate beginning of hostilities
between the United States and Mex-
ico has been averted on account of
the fact that General Carranza has
released the American prisoners at
Chihuahua city. It is felt however
that there is much left yet to be
settled yet. General Carranza's re-
ply is awaited with much interest.
The first news that the Carrizal
prisoners had been released official-
ly from General Funston this
morning.

President Wilson wants to know

Should a neutral country furnish
war munitions simply for money
and care nothing for human life?
Governor Philipp comes just as
near standing pat on this as any
other questions except that he is al-
ways looking for every gain for
big business irrespective of human
life or human interest.

EQUIPMENT FOR MILITIA ARRIVES

Camp Douglas Reservation, Wis.,
June 27.—Rifle practice from morn-
ing until night, artillery and caval-
ry drills and rigid examinations of
men by United States army officers
were the steps taken on Monday to
make an effective fighting force of
the provisional brigade.

Uniforms and full equipment to
the number of 3,110 outfits arrived
during the day from army store-
houses at St. Louis and were taken
in charge by the chief quarterm-
aster, who will distribute them to
the regiments on Tuesday. The
guns and ordnance supplies hav-
ing arrived earlier in the day, every
one of the 5,000 men will be ar-
med, equipped and in uniform
probably by Wednesday night.

Gen. Holway has decided that
when the batteries of Racine and
Green Bay are combined with Bat-
tery A to make a battalion, Capt.
Philip C. Westfahl of Battery A
will be major. First Lieut. J. G.
Reed will be captain and battalion
adjutant. Lieut. Alonzo J. Com-
stock will be captain of Battery A.
Second Lieut. William Frederick
and Alvin Kuechmeister will be
made first lieutenants, and two Bat-
tery A sergeants will be designat-
ed by Capt. Westfahl to take an
examination for lieutenantcy.

Artillery drill on Monday con-
sisted of sight setting for range
and deflection and regulation of
distance and height of bursting
shells.

When the troops move south the
battery will probably be separated
from the provisional brigade be-
cause there is a shortage of artill-
ery in the Thirtieth division,
which includes Wisconsin, Iowa,
Minnesota and North and South
Dakota. Two more batteries are
needed to complete the necessary
two regiments. Minnesota has a
full regiment. Iowa has one bat-
tery, and Wisconsin has one bat-
tery that is prepared for service.

PERSEVERANCE.

Genius is only the power of
making continuous efforts. The
line between failure and success
is so fine that we scarcely know
when we pass it, so fine that we
are often on the line and do not
know it. How many a man has
thrown up his hands at a time
when a little more effort, a little
more patience, would have
achieved success! As the tide
goes clear out, so it comes in—

what first chief's attitude is for
the future. He also wants his ex-
planation of the Carrizal fight and
whether his future intentions em-
body a cooperation with the Amer-
ican forces in Mexico or opposi-
tion to their work. However, there
is no question but that the recent
crisis has served to retard rather
than increase any hope that Gen-
eral Carranza may have had for an
immediate withdrawal of the Amer-
ican forces from Mexico.

The situation between the Unit-
ed States and the de facto govern-
ment is still very grave.

DANGERS OF CAMP NOT LIKE 1898

Washington, June 29.—Those who
have sons, husbands or sweethearts
called to the colors with the na-
tional guard are promised in a
statement issued by the army med-
ical department that there will be
no repetition of Spanish war health
conditions among the troops, and
that the men will have every pro-
tection afforded by science, thought
and money.

The statement points out that
typhoid fever, the chief enemy of
the soldiers in 1898, has been virtu-
ally eliminated and vast strides
have been made in controlling oth-
er diseases.

The statement declares world
standards in sanitation have been
set by the army medical service
and that in point of supplies, this
is the best equipped division of
the army.

France in Hindustan.

Surprisingly few people remember
that France owns five little tracts scat-
tered over the peninsula of Hindustan.
They are Chandernagore, near Calcutta;
Pondicherry, Kankhal and Yanam,
on the Coromandel coast, north or south
of Madras, and Mahe, on the Malabar
coast, almost due west of Pondicherry.
The total area of the five is about 213
square miles, but the population num-
bers about a quarter of a million, and
the total volume of trade is worth
something like \$7,000,000, only \$1,500,-
000 being imports and practically all
the rest being rice sent to France itself
or other colonies. Pondicherry, the seat
of government for all these tracts, is
eighty-three miles south of Madras.

Courage of a Bird.

A curious incident is vouched for,
showing how bold a robin may become
when its food supply is threatened. A
lady threw into her garden a boiled
potato for the birds, and shortly after-
ward a robin appeared and began to
peck at the food. Soon the robin was
interrupted at its meal by a half grown
rat, which commenced to nibble the
potato. To the surprise of the lady
who was watching the proceedings the
robin immediately attacked the rat
and drove it off. In a little while the
rat came forward again, and another
encounter took place, the robin once
more proving victorious. A third essay
was made by the rat, and this also
ended in the retreat of the rodent.

Queer Indian Custom.

The Haida Indians, living on the
Queen Charlotte Islands of our Alas-
kan possessions, were, until a few
years ago, divided strictly into two
tribes, Ravens and Eagles, both strictly
exogamic, which is to say, that Eagle
men had to marry Raven women
and vice versa, the children, according
to a tribal law, becoming members of
the mother's tribe and returning to that
group when half grown to receive
training and ultimately inherit the
family property.

"The Quality Store"

The implements used in putting a
corn crop into the ground vary with
the locality and the amount of labor
and its cheapness. Where the crop or
the farm is very small hand planting
methods much like the old row by row

dropping and hoe covering are adopted.
"Bill picks" or hand corn planters are
one of the implement types used where
labor is very cheap and the crop is not
extensive. These implements are rarely
seen in the corn belt, though they are
very handy for replanting.—Farm
Progress.

BITS OF FARM WISDOM.

To prevent your apples and grapes
from rotting spray them with bordeaux
mixture.

Do not fail to set a few rows of late
tomatoes. If gathered just before frost
and wrapped in paper the green fruit
will keep until Christmas or later and
ripen well.

If cauliflower is to thrive it must be
planted on moist, well drained, fertile
soil.

In the case of young fruit trees
planted about the home grounds, where

they cannot be cultivated, keep the soil
stirred about them with a hoe or place
around them a heavy mulch of straw or
stable manure.

Hoe the weeds out of the corner of
the garden before they develop seed,
and you will lessen the number of
weeds that will come up next year.

Learn to know your ladybug friends
and give them a chance to multiply as
much as possible. There are a number
of varieties of ladybugs, and all of
them make war on other harmful bugs,
particularly plant lice of various kinds.

Knew the Suits.

"Where have you been until this
hour?" said Mrs. Lawyer To-wit to her
late returning hubby.

"I've been looking after some suits,"
admitted To-wit.

"Yes, I know those suits—the old dia-
monds, beads, spades and clubs. Well,
this is the last night I'll let you out."—

white, which makes them invisible on
the ice on which they are born. Their

only when they grow and begin to
seek their own food that they become
dark and sleek.

Australia's First Theater.

The first recorded production of a
play in Australia took place in June
of the year 1790. It was called "The
Recruiting Officer." The proceeds of
the first pay night (some £20) went to
the family of a man who had been
drowned. In January, 1790, a rough
and ready playhouse was opened, and
the public had to pay a shilling a head
for admission. The payments were
made in kind, wheat, flour or rum tak-
ing the place of the usual currency.—

TEXAS USES OUR SEED POTATOES

(By W. D. Juday)

In June 1915, a Texas buyer and grower of Triumph seed potatoes came to Oneida county, looked over our potatoes and then contracted for four car loads of the Triumph seed, later including two more cars in his order. The man was so well pleased with his seed that a few days ago he came again to the county and this year contracted for 25 cars and took an option on 15 more cars of common stock and ten cars of certified stock. He pronounced Oneida county seed the best received in his district last year. This means that Oneida county's reputation as a center for the production of pure bred seed potatoes is still growing. It should mean, too, that every grower in the county will take great pride in keeping his stock up to standard. Minnesota and Maine have heretofore furnished practically all of the southern seed but the growers in these states have not kept their varieties pure and have made no extra efforts to eradicate the common diseases. If we will but look to these two things, orders for our seed will increase each year.

The two diseases the southern growers guard against are common scab and rhizoctonia or black scurf. We are not troubled to any extent with the scab but the black scurf is really getting serious. So far no reliable information concerning the control of the scurf disease has been published, but by next spring we hope to have the matter thoroughly worked out as H. E. Hartman, of the State Experiment Association has 400 experiments he is conducting at the farm of Chas. Lyman near Rhinelander, all dealing the control of this disease. Each grower should be anxious to gain this information and do all he can towards the prevention of this disease. Its control will mean a bigger yield of better potatoes.

It should be our aim to grow the best potato in Oneida county that is grown anywhere in the country today. Keep the crop up to standard, and at all times let other people know the quality of seed stock produced. Then there will be no trouble in selling our product at prices far above the average and potato growing will be profitable even in season of low prices.

GUARDS' PAY FROM \$15 TO \$4,000

The mobilization of the state militia at Camp Douglas to prepare to go to the Texas border for guard duty, has aroused public interest and questions have been asked frequently about the pay received by the guardsmen. Each of the three colonels in command is paid at the rate of \$1,000 per year. The scale of compensation is as follows: Lieutenant colonels, \$3,500 per year; all of the majors, including the major surgeons, \$3,000 per year; captains, \$2,400 per year; first lieutenant, \$2,000; second lieutenant, \$1,800.

The first sergeants, \$15 per month; quartermaster sergeant, \$45; other sergeants of infantry, \$30; corporal, \$21; private, \$15.

FREIGHT WRECK

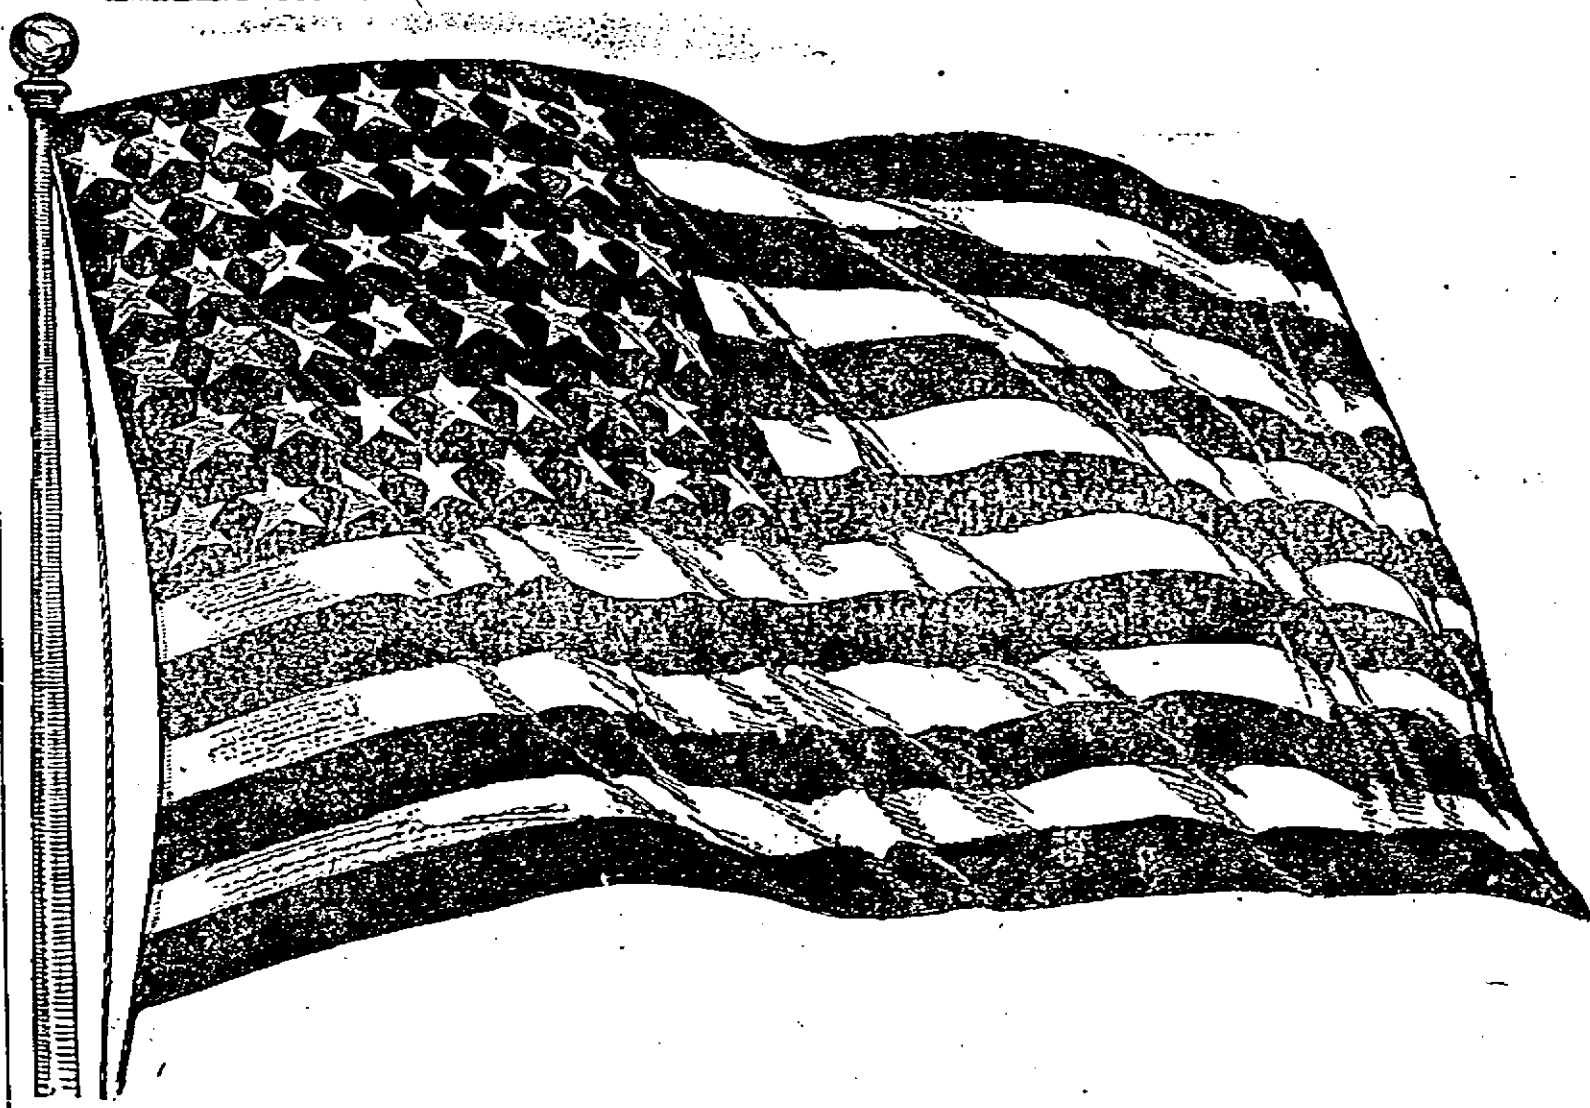

Two freight trains switching in the north end of the Soo line yards collided Sunday afternoon, partly demolishing four loaded cars. No one was injured. The wrecking crew from Gladstone, Mich., was rushed to this city and soon had the track cleared for traffic. The smash-up attracted many people and numerous kodak views were taken of the scene.

SHIPS FINE CALF

George Coleman of the town of Pelican shipped a pure blooded Holstein calf, two weeks old, to a stockman in Plano, Ill., Monday. The calf is a beauty and is a good advertisement for the stock raising possibilities of Oneida county. The mother of the calf, according to Mr. Coleman, produces thirty-six quarts of milk per day.

ANTIGO BOYS IN CO. L

In spite of the fact that Antigo did not have a company of National Guards we are going to furnish our quota of soldiers. Four Antigo boys have already gone with the Rhinelander company and more are making arrangements to enlist. And today The Journal prints a story regarding another Antigo boy, who goes with the Illinois National Guards as a commissioned officer.—Antigo Journal.

ANDERSON GETS MAIL CONTRACT

A message from Washington states that the contract has been awarded to Sam Anderson for the rural mail delivery on the Wisconsin river north to Wubker's bridge, commencing July 1st. Delivery to be every day except Sundays. Mr. Anderson is well equipped to give the government good service. He is allowed to carry passengers, packages and freight and will save many a tired farmer a trip to the city.

Postmaster Matt Stapleton would suggest that parties on this route living along the river erect mail boxes at high banks as much as possible, where temporary platforms can cheaply be built for freight and passenger traffic, and work as much as possible in unison with Mr. Anderson in making deliveries along the river.

BIG TIMBER WASTE

The waste that attends the manufacture of lumber is set forth in a circular recently issued by the forest service of the United States department of agriculture. "There are more than 48,000 sawmills in the country," says the circular, "and their output of waste in the form of sawdust, shavings, slabs and other wood refuse is estimated at 36,000,000 cords per year. This is equal to over 4 1/2 billion cubic feet of waste which is the capacity of a bin one-half mile high with a base covering a forty acre lot. Or, considering each cord to contain eighty cubic feet of solid wood with all the cracks and air spaces taken out, these 3 million cords would make a block of wood more than a quarter of a mile on each side.

"Perhaps one-half of this so-called waste product," says the circular, "is not strictly speaking wasted but serves a useful purpose as fuel under the boilers. Much of the remaining 18,000,000 cords not only serves no useful purpose but in most cases a source of inconvenience and danger and costs the mill time and money."

CONGREGATIONAL CHURCH

Communion service at the Cong. church Sunday morning at eleven o'clock. There will also be given an opportunity for persons to unite with the church. Theme for the morning discourse will be "A Supreme Desire" based on these words, "We Would See Jesus." You will be present Sunday and bring your friends. Strangers are sure to find a welcome. Every body make a special effort to be out Sunday. Come to the Bible school at ten o'clock. We need you in this fine work with the young people.

MAY HAVE TO SERVE 3 YEARS

A prospect of three years' service in the regular army confronts many of the recruits at Camp Douglas, who will be mustered into the federal service this week. Some of them don't mind, but for those who were forced to leave well paying positions, it is a serious matter.

It has been expected by almost all the guardsmen that federal service would be "for the war." When the war was ended, they thought, they would be able to return home immediately, but under the oath which the men are taking they will be held not only during the war, but during the military occupation of Mexico for a year or two after the war.

The oath given the men binds them to serve until the end of their enlistment in the Wisconsin National Guard. The man who has served two years of his three year enlistment will be released from federal service at the end of a year, but those who enlisted since the president called out the guard, may have to do garrison duty in Mexico until an independent government is established. — Milwaukee Sentinel.

AFTER THE DEVIL

The evidences of a personal devil. Its your business and my business to fight everything the devil is in favor of. When the devil can get a man to stand in the pulpit and say he is a myth, he gives him the lie. When the devil comes around I put on my fighting togs and get busy to swing for knock out. I swing on him with the word of God and he takes the count every time. You act the hypocrite and the devil will pat you on the back and say, "Put her here old man. You're a regular little devil in your own town," but what God thinks of you wouldn't look well in print. If some body tipped you off which side of a question the devil is on, then you can stake your life I am on the other side. God don't want any shadow boxers hitting at an imaginary foe. If you don't believe there is a personal devil hit him good and hard and you'll hear him roar for a week. Jesus preached of a devil and I have no desire to be any more broad or liberal than Jesus. If you want to hear the old enemy of your souls get all that's coming to him come up to the Baptist church Sunday night.

OATH THEY TAKE

Camp Douglas, Wis., June 26.—(Special).—Following is the oath administered to each man as he is mustered into the service of the United States:

All and each of you whose names are entered on this roll, have been duly accepted into the United States service, as commissioned officers and enlisted men of militia, this day for the period of your enlistment, unless sooner relieved by the president, do solemnly swear or affirm that you will bear true faith and allegiance to the United States of America; that you will serve them honestly and faithfully against all their enemies whomever, and that you will obey the orders of the president of the United States and the orders of the officers appointed over you according to the rules and articles of war, so help me God.

It is to be noted that in the old oath, under the Dick law, which has been superseded by the Hay-Chamberlain act, the militiamen swore to serve only within the continental confines of the United States.

MEUNIER ENLARGES CAFE

J. N. Meunier has enlarged his restaurant in the Arlington block on S. Brown street, having rented a portion of the store formerly occupied by H. R. Goldstone. This allows room for several new tables. Mr. Meunier has engaged the services of a first class cook and patrons may be assured unexcelled cuisine.

Mr. Meunier came here early last spring from Tomahawk where for many years he conducted a restaurant. He says his business is good.

S. OF N. CONVENTION

Rhinelander Sons of Norway are planning to attend the district convention of the order to be held in Ashland July 10, 11 and 12. The district comprises Wisconsin, Iowa and Illinois. It is expected that about one hundred delegates will attend the convention.

"One day a pal o' mine handed me his package of NIGGER HAIR Long Cut an' I loaded my old pipe and smoked up on it.

"Afterwards he gave me a whalin' big chew of it. Both ways it was richer, sweeter and mellow than any other tobacco I ever used.

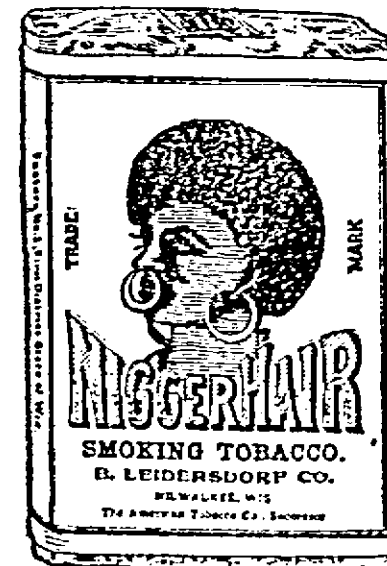

"From that day NIGGER HAIR has been my brand, 'cause it's real Long Cut and gives me real satisfaction."

RAISING RASPBERRIES.

Succeed Best Upon Deep, Moist, but Well Drained Soil.

Raspberries succeed best upon deep, moist but well drained loamy soils, the blacks upon the heavier and the reds upon the lighter. The more retentive of moisture the soil is the better since the fruit ripens at a time when water is often scarce; hence the addition of humus is often desirable. It may be most easily obtained in the form of stable manure and green manures, such as clover grown at least one year before planting. The ground should be plowed as deeply as possible without turning up the subsoil and after harrowing the plants set. Clean

RASPBERRIES FOR MARKET.

cultivation both ways is usually practiced until midsummer, when a cover crop of crimson clover or some shallow rooting plant is sown to be turned under the following spring. Sometimes, however, other crops, such as potatoes, carrots, beets, etc., which are not tall, are grown between the rows for one or perhaps two years. Wood ashes, muriate of potash, superphosphates and ground bone are favorite sources of potash and phosphoric acid. With adequate tillage during the summer spring plowing may be avoided.

For market the fruit should never be picked until after the dew is dried and should be shipped to market in small packages. Red raspberries are usually marketed in pint baskets. The picking of both kinds of raspberries is generally done by hand.

ALFALFA FOR HORSES.

Should Be Allowed to Come to Full Bloom Before Cutting.

Alfalfa hay cut at the right stage of growth and properly cured and fed is one of the best feeds produced in Kansas for all classes of horses, according to C. P. Thompson, specialist in animal husbandry, division of college extension, Kansas State Agricultural college.

"Allow the alfalfa to come to full bloom before cutting and let it become well cured before stacking," advises Mr. Thompson. "Do not feed too much. Eight or ten pounds daily for a thousand pounds live weight is sufficient for work horses. Feed most of the hay at night. Never feed too much roughage of any kind at noon to horses that are working, and never feed musty or moldy hay.

"If alfalfa hay is used for part or all of the roughage 80 per cent corn and 20 per cent bran is a good combination. Where alfalfa hay is used the bran is added to furnish bulk, especially if the corn is to be ground. From eight and one-half to ten pounds of grain a day for each thousand pounds of live weight is sufficient to keep a work horse in good condition."

When Humus is Lacking. Soil that is wanting in humus will leave badly during the winter, and when land leaves it is a sure sign that the soil requires humus, deep tillage and lime.

Heaving is the action of the frost, repeated freezing and thawing throwing plants, such as strawberries, for example, almost completely out of the ground.

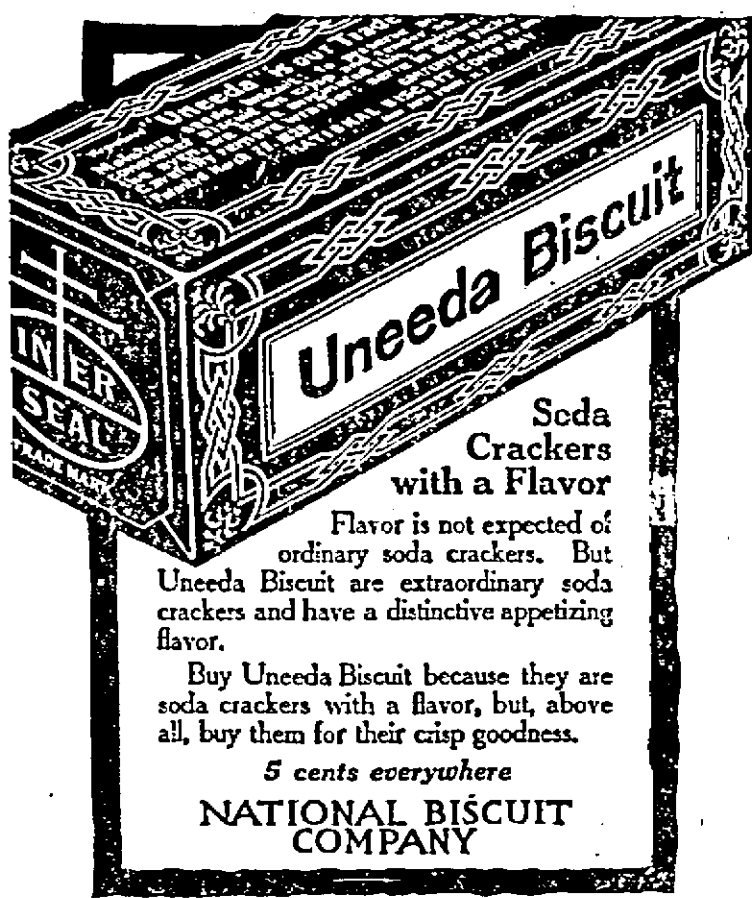

Soil that is supplied with plenty of humus and has been tilled deeply lets the water down under the surface quickly, preventing washing and serious damage from the action of frost.

CHERRY SPRAYING PLAN.

A spray calendar for the prevention and control of insects and fungous diseases affecting the cherry has been outlined by the Pennsylvania station. For the dormant spray in spring, before buds start, lime-sulphur is used. It is not often needed on sour varieties. Immediately after the petals fall lime-sulphur and 40 per cent nicotine extract, half to three-fourths pint to fifty gallons, is used for aphids and leaf spot. Lead arsenate paste, three pounds, is added for curculio, slugs and red leaf beetle.

When fruit is the size of a small pea a spray may be applied for brown rot. Materials are the same as for the aphids and curculio spray. If the fruit is very bad a coarse spray of lead arsenate, three pounds, and molasses, one pint to fifty gallons of the lime-sulphur, is used on the lower limbs, when the adults appear in early June.

Shortly after the fruit is picked a spray is given if leaf spot is apparent. Lime-sulphur alone is used to prevent defoliation by the leaf spot or shot hole fungus. Repeat a month later if this disease is bad. If pests are known to be absent corresponding sprays are omitted.

BOWEL COMPLAINTS IN INDIA

In a lecture at one of the Des Moines, Iowa, churches a missionary from India told of going into the interior of India, where he was taken sick, that he had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with him and believed that it saved his life. This remedy is used successfully in India both as a preventive and cure for cholera. You may know from this that it can be depended upon for the milder forms of bowel complaint that occur in this country. Obtainable everywhere.

SOLDIERS' MENU

Our soldier boys will not starve when Wisconsin or Uncle Sam feeds them in camp or along the Mexican front. The state troops will be fed according to the allowance provided the regular army soldiers.

Following is the average daily food each soldier will receive:
Fourteen ounces of fish.
Eighteen ounces of salt beef.
Sixteen ounces of fresh beef.
One egg.
One ounce of coffee.
One ounce rice.
One ounce potatoes.
Two ounces beans and butter.
Three ounces sugar.
Fourteen ounces cornmeal.
Bread.
Rations to feed 10,000 men have been ordered for immediate delivery to Camp Douglas.

MILLION IN AUTO LICENSES
Wisconsin will get revenue amounting to more than \$1,000,000 from automobile and motorcycle licenses this year. The number of licenses issued by the secretary of the state already exceeds 94,000. The 100,000 mark, prophesied early in the year will be easily topped. There are also about 6,000 motorcycles in the state. The office of the secretary of state is now busy apportioning the money due the counties from this source. With the exception of the cost of administration, the majority of this money goes back to the counties for highway purposes.

STATE OF WISCONSIN,

Nursing Offers Career
On more than one occasion during the past year private duty trained nurses have been unavailable in any part of the state. The shortage, furthermore, was not confined to Wisconsin. Chicago, similarly hard pressed for proper attendants for its sick, has applied to Milwaukee registries for assistance. This situation offers properly qualified young women extraordinary opportunities for entrance into one of the noblest of professions and assurance of good earnings after graduation. Several factors have combined to create the demand for nurses which is in excess of the supply. First of all, there is a growing appreciation on the part of the public of the greater comfort, safety and increased life and health assurance that a competent nurse offers to individuals and families afflicted by illness. Second, nurses, physicians, hospitals and the employing public are all demanding a higher type of woman as the calling is being placed on an increasingly higher professional basis. Third, industries, health departments, school boards, and various social service agencies are constantly offering inducements to especially well qualified nurses to enter public service. Lastly, the war in Europe has called many American nurses into service abroad.

Excepting the last, the above named factors, which are producing a demand in excess of the visible supply, will be lasting, increasing rather than decreasing in opportunities. It is, therefore, with more than ordinary assurance that this article is addressed primarily to the best of the young women who are graduating from high schools and colleges and who need or desire a self-supporting career. Short as is the supply of good nurses, there is no need or any great opportunities ahead for poorly qualified and poorly trained ones. The first requirement of a good nurse is temperamental and not sentimental fitness. The next is personality and brains. The third is good training, which means abundant opportunity to learn by observation and through sufficiently systematic and well adapted instruction by skillful teachers.

Such training is available in many hospital training schools; but it should not be assumed that all hospital training schools offer the pupil nurse what she has a right to expect in return for the service she renders the hospital during her period of training. It must be confessed that some so-called schools are organized solely for the purpose of securing virtually free labor for two or three years in exchange for a diploma, which, however beautifully engraved or beribboned it may be, proves to be practically valueless to its possessor. It, therefore, behooves prospective pupil nurses and their parents to scrutinize available training schools very carefully and to be assured that time and really worth while opportunities will not be sacrificed by being too readily offered to the first bidder. The best hospitals and training schools are eager to secure promising pupils and usually have plenty of openings for such. If a poorer school needs to be accepted, let its choice be last and not first.

MINOCQUA

(Minocqua Times)

Earl R. Schilling accidentally struck the Dorwin delivery wagon on the Woodruff road Saturday. The car was going at a very slow rate of speed so but very little damage was done.

The Minton motor car was struck near the Hazelhurst crossing last Saturday by freight No. 93. The motor car had first barely missed a farmer's wagon and when slowing down the freight hit the car, but little damage was done.

Sister Margaret now has the rooms of her home on Oneida St. occupied by good pleasant people with the exception of one suite of rooms which she is reserving for her brother Dr. Palt of New York who will arrive the first of September.

The Fourth of July committee has been very successful in gathering funds and a grand celebration is now assured. Games of all kinds will be played and prizes given. Two bands will furnish music for the celebration. A base ball game has been arranged between the Minocqua Sox and the Flambeau Indians. A grand display of fire works will be shown in the evening. No one should fail to come and celebrate in Northern Wisconsin's beauty spot. A lumber jack riding on a hand car on the Northwestern tracks near Mercer was instantly killed when the limited struck the car. Four other passengers escaped injury.

Got Their Share.

Seven communists in Paris during the 1848 revolution called on the head of the Rothschild house there, reminding him that now all wealth was to be divided and intimated that he better get ready. The wily financier pulled out a pencil, divided his own wealth by the population of France, gave each of the committeemen four francs and bade them good day.

INCREASING MISERY

Some Rhinelanders Kidney Sufferers Get Little Rest or Comfort

There is little sleep, little rest, little peace for many a sufferer from kidney trouble. Life is one continual round of pain. You can't rest at night when there's kidney backache. You suffer twinges and "stabs" of pain, annoying urinary disorders, lameness and nervousness. You can't be comfortable at work with darting pains and blinding dizzy spells. Neglect these ailments and serious troubles may follow. Begin using Doan's Kidney Pills at the first sign of disorder. Thousands have testified to their merit.

Proof of merit in Rhinelanders testimony:

Mrs. D. McIntyre, 833 Mason St., Rhineland, says: "My kidneys were weak and I had attacks of backache. Often I got dizzy and nervous and mornings when I got up, I felt all tired out. I finally got Doan's Kidney Pills at Reardon's Drug Store and was greatly benefited. The tired feeling and pain went away and the kidney weakness was also corrected. I have never been severely troubled since."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. McIntyre had. Foster-McBurn Co., Props., Buffalo, N. Y.

NITROGEN FOR NOTHING.

Why buy nitrogen when you can get it for nothing? Both cowpeas and soy beans take nitrogen from the air and put it in the soil. These plants are great soil builders and furnish a great deal of humus when plowed under. As a feed, both green and cured, they are equal to clover. Both these plants, especially the cowpeas, will grow on poorer soil and require less lime than clover, and on this account are easier to grow.

Cowpeas and soy beans will grow only during warm weather. Planting should therefore be delayed until about June 1. The seed may be sown broadcast or put in with a drill, using one and a half to two bushels of seed per acre. Drilling will be found more satisfactory than broadcasting, especially in dry weather.

While both the plants will grow in rather poor soil, some lime is necessary. Use about a ton of hydrated lime to the acre. This should be applied after plowing and disking in before seeding, so the lime will also help other crops which follow.—John Michels.

THE COUNTY AGENT.

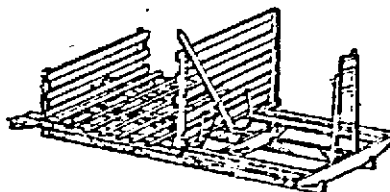

The Value of His Advice Is Made Manifest.

Until the last few years the county agent was practically unknown in America. The educational work done was accomplished through the department of agriculture or agricultural colleges in the different states, usually working on the farmer from a distance through pamphlets, correspondence, etc. The county agent movement represents the growth of the idea that the most good can be accomplished through local organization coming in closer contact with the farmer. There are now in the United States 313 counties employing full county agents, or advisers, whose work comprehends silos, crops, live stock, cultural and tillage methods, better roads and is being enlarged to include other activities.

Indiana, Wisconsin, New York, Minnesota, Michigan, North Dakota, New Jersey, Ohio, Utah, Oregon, Washington, Vermont, Colorado, Idaho, Montana and Illinois have laws providing for county agents. These advisers visit the farms in their counties during the summer, give lectures, help the farmer with his problems and bring to him in concrete form the results of the latest scientific experiments conducted by the agricultural colleges. What the county agent has done for the farmer is described by Robert H. Moulton in the Outlook. The farmer, he says, has been taught to recognize each of the soil types of the county by sight; to know each of the numerous insect pests, and the means of its extermination; to make seed tests and to discover the variety best adapted for their peculiar need. He has been taught the value of rotation, leguminous crops and commercial fertilizers. Through the medium of the county adviser's office the farmers are brought together in a social intercourse which was led, in many cases, to the formation of co-operative organizations. In one county in Illinois farmers organized a seed pool, each sending in a list of the seeds needed. The discount from the list prices obtained by this method is said to have been almost sufficient to pay the county agent's salary for the year. That county has also established a co-operative slaughter house and a community laundry. The 156 county agents who reported to the department of agriculture last year showed that benefits directly traceable to their work were worth several millions of dollars. They were responsible for the construction of 1,904 silos, the improvement of 614 farm buildings, the installation of forty water supply systems and improvement in sanitary condition and appearance of home grounds on 337 farms. This work was incidental to advising with farmers, making soil analyses and working out rotation and drainage problems. Their success and the fact that in nearly all cases they are employed by the farmer, who bears part of the salary expense, indicates that the attitude of the average farmer toward scientific agricultural methods is changing, or that in the past he has been misrepresented.

Hay Rack For Loader.

Those farm youths who have toiled beneath a 95 degree sun in an attempt to load ahead of a loader that was sweeping up heavy windrows will see that the head of the farm looks into this invention that is designed to do away with the killing race they have had to put up to keep from stopping

the team and resting while they distributed the piles of hay that rolled up. The man on the hayrack can tell the driver to go ahead and calmly tramp down the hay as it rolls up on the front end. When that is loaded he moves a lever that unlocks a reciprocal truck on the bed of the rack and the hay loading surface of the rack is moved ahead and the rear half brought up under the trailer to be loaded, as was the front.—Farming Business.

LITTLE CHATS ABOUT POULTRY

(By G. E. Conkey)

The question of sanitation is one which cannot long be disregarded by the poultry keeper without encouraging disastrous results in his flock, and this applies alike to the back-lotter and the raiser of thousands.

The dangers arising from neglected sanitary precautions are greatly increased during the hot weather and you'll do well to acquaint your self with the care demanded at this time. Sometimes seemingly small matters will lead to serious troubles and even cause a heavy loss in the flock in a very short time.

It is possible that some may be more fortunate than others in having good natural conditions, but at the same time there are certain attentions demanded in the way of sanitation if uniformly successful results are to be obtained. There is always a great advantage in having houses and runs favorably located for this greatly lessens the work of caring for the runs and more time can be devoted to the attention of the house interior, fixtures and small equipment.

With a very little care a loose soil with good drainage can be kept free from contamination, but a heavy soil like clay needs constant care or it will get into such a filthy condition as to endanger the health of the birds. It is best to plow or spade all ground that is devoted to poultry use at least once a year, but where the soil is heavy or the birds are rather crowded, this work should be done with more frequency. However, with a poor soil there is a limit to the time the land should be used for poultry if the stock is to be kept free from disease.

Vegetable growth is a great soil sweetener and renovator and when ever possible some quick growing crop should be planted in the runs. Sometimes two yards are provided for each flock or pen so that one can be seeded down while the other is in use, and this is an excellent idea where there is plenty of room. If the land is such that it cannot be freshened by cultivation or vegetable growth, or at least when these do not prove sufficient for the purpose, then covering the ground with a coating of lime makes a good purifier. Also a weak solution of carbolic acid or a coal tar disinfectant will be found a good germ killer and destroyer of parasites in the soil. Use these things frequently when they are needed during hot weather. Where any filth can be removed this should always be done before spraying. Fill up any low spots or mud holes that may be in the run so the birds will have no place from which to drink filthy water after a rain.

Soil contamination, naturally, is of little concern with the farm flock having a large range but at the same time it is true that poultry is often kept where it is possible for the birds to drink from pools of stagnant water, especially about the barn yard, and during the hot months in particular there is danger of this causing serious digestive ailments. The remedy for this particular trouble lies in better drainage or grading and filling in of these low places.

The poultry house itself demands of all alike a certain amount of care in the destruction of disease germs and parasites and no half-way measures will answer here, for the work must be systematic and efficient.

The application of a coat of whitewash to the interior of the house is common method of disinfection, and this also has the advantage of brightening it and improving the appearance. Adding carbolic acid or a coal-tar disinfectant to the whitewash will greatly increase its efficiency. The house should be gone over once or twice a year in this way. Just before such application is a good time to give the house a thorough cleaning, removing nests, roosts and other fixtures as far as possible, to get into every corner and crevice. A good spray pump will greatly lessen the work of applying whitewash and this also could be used for disinfectants and the spraying of fruit trees, shrubbery, etc. In hot weather lice preparations must be used in the house regularly every week or two and especially about roosts and nests for you must not take any chances of mites getting a start. Keep these pests out of the house altogether by systematic work commenced early in the spring.

Lice liquids with disinfecting properties and coal-tar disinfectants are best suited for ordinary use in the poultry house for they will kill disease germs as well as lice and mites. When a gaseous disinfectant is needed to reach the ceiling of houses or in incubators or brooders, formalin (formaldehyde) is most effective providing the vapors are confined. A three to five percent solution is used for spraying the interior of house or machine.

It is not a good plan to leave droppings accumulate in the poultry house at any time but it is particularly harmful to do so in hot weather. Remove them daily when possible or at any rate once a week. Fills makes a good breeding place for lice and disease germs.

Unusual cleanliness is demanded in the care of drinking vessels and they should be thoroughly cleansed every day or two using a little disinfectant in the wash water. Keep the drinking water in a cool place and always out of the sun.

WEDGE TALKS FOR Y. M. C. A. HERE

Baptist Pastor Makes Plea For Association At Business Men's Banquet

At the recent banquet of the Rhinelander Advancement Association Rev. F. H. Wedge, of the First Baptist church, made an urgent plea for a Y. M. C. A. building for Rhinelander. The substance of his address was as follows:

The greatest assets of Rhinelander are not our banks, our mills, our factories, our hotels, our stores and our beautiful homes, however much these may represent our community's prosperity. The greatest assets of Rhinelander are the manhood and womanhood of this city.

This is the day of great co-operations, big business but back of every big business is a giant character and a giant personality. A man was interviewing the president of an eastern corporation when a young man employed by the company came in to speak to the great financier concerning some work in one of the big shops of the firm. As the young man left the office the president turned to the man who came for an interview and said: "That young man receives a salary of three thousand dollars a year and he is only twenty-one years of age. We pay him one thousand dollars for what he does and two thousand dollars for what he is." The man who came to interview the president of the company was surprised at the statement and asked the explanation. "We observed when this young man first came to us he spent his leisure time in the evenings when not working for us, in the organization of the young men of our shop into clubs to congregate the saloons and pool halls and other places of entertainment that would not be beneficial to the welfare of the young men of our employ. Our young men became more efficient workmen and their earning power increased over ten percent. This young man that organized an institution that furnished clean recreation for our young men is worth every cent of the three thousand dollar salary we pay him." Character is an asset to any business.

The business men of America have invested over one hundred million dollars in Young Men's Christian Association buildings, according to the nineteen sixteen report of the international committee of Young Men's Christian Associations which met at Cleveland in May. These practical business

men of the commercial world realize that young men who spend their time building up strong clean bodies and strong minds and enjoying the pleasures afforded by a Y. M. C. A. are a greater asset to their business than a cigarette smoking, beer guzzling dude that hangs around on the whittling corner or frequents the saloons and the pool halls.

The various departments of the Y. M. C. A. appeal to men in every walk of life.

The industrial department has received a welcome from employers and employees in every industry and from every type of worker. Following the path blazed by the rail road Y. M. C. A. the work among the workmen has become an asset to the business world.

Student work of Y. M. C. A. in the night school department has furnished opportunities for young men to obtain an education and thus fit themselves to be more efficient workmen. Employers of labor lose thousands of dollars every year because men have not learned to labor with their brains as well as their muscles. The lecture course furnished by Y. M. C. A. come under head of educational department. The Y. M. C. A. can secure better lecturers than any chautauqua or city organization because the organization is a national one.

The boys' work. Ten thousand schools are using the Y. M. C. A. buildings on Saturdays and from four to six twice a week during school days under the direction of a skilled expert on boys' work trained by the Y. M. C. A.

Business men's classes: Office men meet in every city Y. M. C. A. and take an hour of gym work ending with a shower bath, putting themselves in fine trim to meet the strenuous life of the commercial world. Why it will make some of you men feel and look so young, who have been humped over a desk for years, that your friends won't know you when you walk down the street with your wife and they will think you are out walking with your mother.

The cost seems to be a stumbling

block to some but when you consider that over a thousand boys and young men would be benefited by a Y. M. C. A. in Rhinelander and that such an institution would cost only about fifty thousand dollars and that every department of the city's life would be benefited and Rhinelander would have a monument to the youth of coming generations as well as the boys of today, the cost is really small. No greater dividends in the world than the dividends of investing in red blooded young America.

You want facts—alright. I'll give you the true story of a Rhinelander youth who went wrong because there was no place to go but the saloon and the pool halls. He spent one hundred days in one year in the city jail because of drunkenness. The only place for sociability he could find was the frog shops. He drifted to a city that had a Y. M. C. A. and in that city he came into the splendid environment of the Young Men's Christian Association and his whole life was changed. Rhinelander could have done that job for that young man and hundreds of other young men if she only had had an institution such as we propose tonight. You say you are like uncle Zeke from Missouri. "They've got to show you." Alright: "I am that boy and what the Y. M. C. A. did for me it will do for every young man in Rhinelander."

Remember, business men of Rhinelander that no monument was ever erected to a man who did nothing else in his life than make money. A Y. M. C. A. in Rhinelander would be the greatest monument that could be ever erected in memory of the men who are at this Advancement Association banquet. This is not the work of men. It is the work of God we are planning to do. I am no prophet nor the son of a prophet but predict because I believe in Rhinelander and the men who have made her the most enterprising city in northern Wisconsin, that you men will erect a Y. M. C. A. building that will be credit to this town and a tribute to the value you place on the life of the young manhood of Rhinelander.

LEOPARD HURTS CHILD

While the Al. G. Barnes circus was in Grand Rapids a little five year old girl, named Frances Schaar, was badly hurt by a leopard.

The child was looking at the animals in company with her father, when a man picked her up and held her close to the cage that she might obtain a better view of the beast within. The leopard's paw suddenly shot out between the bars and clawed an ugly gash, which extended to the bone, in the little girl's leg.

That the man who held the child up to the cage was a circus employee is the allegation of her father and he has commenced suit for \$6,000 damages against the Barnes show.

ST. AUGUSTINE'S CHURCH

On Sunday, July 2, there will be services at 7:30 and at 11 a. m. The eleven o'clock service will be a patriotic one. The flag will be carried in procession with the cross, patriotic hymns will be sung—the sermon will deal with our duties in the present crisis and prayers will be said that peace may be preserved if it be God's gracious will or that we may have courage to have victory and to triumph, if it be His will that we defend the right. The holy sacrifice will be offered with the above intention. The public is especially invited to this service at 11 a. m.

PASTOR GETS PURSE

A pleasant surprise was tendered Rev. and Mrs. Carl Silfverstein when members of the church and many other friends of the pastor and his family came to their home Saturday evening, June 17, with a large number of bundles and packages of good things to eat. A large purse of money was also donated to the pastor. Refreshments were served after which a social time was spent till a late hour of the evening. The occasion for the visit was that Rev. and Mrs. Silfverstein celebrated their seventh wedding anniversary on that day and Mrs. Silfverstein also her birthday.

TO THE PUBLIC

The chautauqua committee de-
sires to warn the citizens of Rhine-
lander against purchasing the
white season ticket for the coming
chautauqua.

The package containing these
tickets was damaged in transit and
a number of tickets lost. For fear
that they may fall into unscrupu-
lous hands, the committee will
have new tickets printed of a dif-
ferent color and will not accept the
white ticket for admission.

Celebrate July 4th in Rhinelan-
der.

IN these
days when
the high cost of
living has become a serious problem it
is comforting to know that at least one
item of daily use is the same in quality,
size and price as it was a quarter-
century ago.

Ivory Soap now, as then, is made of the
finest materials that can be bought. It
is mild, pure, free from alkali and un-
saponified oil. Its weight and price
are unchanged.

IVORY SOAP - 99 44/100% PURE

(Ivory Soap always has been made in a ten-ounce cake
also. This is intended especially for laundry use.)

An Object Lesson For Budget
Builders
When a few weeks ago the Hon.
Pierre L. Bark, Russian minister
of finance, presented his budget to
the Council of the Empire he said:
"Despite war expenses amount-
ing to 12,000,000,000 roubles, and
thanks to the abolition of the al-
cohol monopoly the financial strength
of the country is growing. The
savings of the nation since the be-
ginning of the war have increased
by 2,000,000,000 roubles."

In an interview published in the
Petit Parisien Mr. Park has this to
say concerning the effect of pro-
hibition on the national finances:
"The budget has been much less
affected than one would have be-
lieved. The productivity of labor
has increased on an average fifty
percent and all the fiscal resources
which come from direct or indi-
rect taxes have greatly developed.
When we derived our revenues
from vodka, it was as though we
were forever drawing out, draw-
ing out—he made a gesture as
though milking a cow—"the vital-
ity of the Russian people. Now, we
seem to be taking merely the in-
terest on their stored up strength
and resourcefulness."

Convict Labor vs. Free Labor
Since January 1, when the pro-
hibition law went into effect, hun-
dreds of prisoners in the state
penitentiary of Washington have
been set at liberty through the ter-
mination of their sentences. Few
have come to take their places. Mr.
George F. Cotterell, highway
commissioner and ex-mayor of Se-
attle, says there are not enough to
do the necessary work of con-
struction on the state highways. In
an address in Vancouver, B. C., he
declared that the dry law had cut
off the supply of fresh convicts and
that the state must perforce seek
free labor for the construction and
maintenance of its highways. And
Washington is not the only dry
state which because of the grow-
ing dearth of convicts is com-
pelled to employ free labor and is
thus removing one of the grievan-
ces of the labor world.

When "Liquid Bread" Is Not
"Liquid Bread"
It is stated that the president and
vice-president of the Commercial
Casualty Insurance Company of
Newark, N. J., are brewers, and
that four brewers are on the board
of directors. Many of their poli-

cy holders use their much-ad-
vertised and highly recommended
"liquid bread," but when these ap-
ply for compensation beer be-
comes an intoxicant and the patron
—of the insurance company and of
the brewery—is referred to a pro-
vision which reads:
"This insurance does not cover
injuries as specified, fatal or oth-
erwise, or sickness as specified,
received or sustained by the in-
sured while or in consequence of
having been under the influence of,
or affected by, or resulting direct-
ly or indirectly, from intoxicants."

The Delight of Children

The self-developed, inner flavour of New Post
Toasties bear a unique attraction for the kiddies—
they even like them dry from the package for their
lunches. A box of Toasties provides "eats" that will
delight the children.

New Post Toasties are usually served with
cream and sugar, in which form the flavour is more
pronounced and the flakes more delicious. These New
Toasties do not "chaff" or crumble in the package
and they don't mush down in cream—both common de-
fects of old-fashioned "corn flakes."

Then, too, notice the tiny bubbles on the flakes,
produced by the quick, intense heat of a new patented
process of making which imparts delightful crispness
and a substantial body to the flakes.

New Post Toasties are a vast improvement over
any old-style "corn flakes."

NEWS NOTES FROM NEARBY CITIES

Tomahawk—

The delegation consisting of City Attorney R. T. Reinholdt, V. E. Extrom, Hall L. Brooks, Leo Martz and Chas. Bebeau who went to Juneau, Wis., to attend the Fireman's Tournament, evidently have been on the job since they left here. The main object of the delegation this year was to land the tournament for Tomahawk next year. R. T. Reinholdt was asked to accompany the delegation to give a speech at the convention inviting the firemen to our city for their next year's tournament. There must have been some golden words in Mr. Reinholdt's praise for Tomahawk, as the boys succeeded in landing the tournament for next year.

Ladysmith—

The writ of certiorari brought by the wet element in Bruce, on the ground of illegality of the license election, has been quashed by

Judge Wickham. In his opinion the merit of the matter cannot be determined in such a proceeding hence quashing the writ does not decide the merits. The village board has decided to grant three licenses in spite of the election, and leave the matter to be threshed out in some other form of proceeding.

Washburn—

Bayfield county is sure getting to be an ideal place in which to live and people seem to be getting along peaceably for the county jail is at the present time, and has been for some time, without any prisoners. The "drys" say it is because there are only four towns in the whole county in which there are saloons. So slack is the business in the prisoner line that the county has been compelled to employ a man to keep the grass cut in the jail and court house yard and it begins to look as if a man will have to be employed steadily for the prospects at the jail for prisoners seems to be slim.

Merrill—

Plumbers tearing out a partition in a residence found the desiccated body of a cat. The mummy had probably been there for years. It is supposed to have gone into the aperture after a mouse, and be-

New London—

The oldest living settler of New London is William Mouto. He came to New London on April 10, 1837, and has resided here continuously ever since. In fact he has never been out of the state since except on one journey to the northern part of the state the train he was riding on was for a time in upper Michigan territory. Mr. Mouto was ten years of age when he came to New London. He will be 69 years of age the 12th of next July. One of his first jobs was as collector for the old toll bridge at the present site of the South Pearl street bridge. The charges were one cent for foot passengers, 5 cents a head for cattle, ten cents for a single rig and twenty cents for a double rig.

PREPAREDNESS PARADE HERE JULY 4TH; GET IN LINE

Are the people of Rhinelander in earnest in believing the boys who have gone from here for service in the Mexican border shall be provided with everything necessary in the way of supplies and munitions to protect themselves from the treacherous greasers?

Are the men of Rhinelander enough in earnest about it to demonstrate it by marching Fourth of July morning in the preparedness parade?

In dozens of cities there has been a vast outpouring of citizens to demonstrate by their presence in a parade their conviction that congress shall give the nation ample preparedness for just such situations as the Mexican de facto government has brought on now.

It should also be remembered that congress is still in session and news of the preparedness parades in all parts of the country is being followed with considerable earnestness especially by members of the House and those senators who go before the people this fall for reelection.

It is also hoped that a large number of automobile owners will decorate their machines for the floral parade. This is a feature which always pleases and which will add greatly to the success of the day.

The list of sporting events has been practically arranged and the various events, with the prizes to be offered, are published in this issue.

The fireworks have already arrived and are sufficient in variety and amount to insure a creditable display. They will be set off from Davenport street bridge, and it is expected that this will be a feature well worth witnessing. The display will be put on just as soon as it is dark enough, probably about 9 o'clock, in order that the children may have an opportunity to enjoy it.

Reports from near-by towns indicate that there will be no lack of a crowd and with favorable weather the 1916 celebration should be a success from every standpoint.

WILL EXTEND W. & N. RAILROAD

The Crandon Republican states that at a meeting held at Oshkosh the officials of the Wisconsin and Northern railroad voted to extend their line from Shawano to Black Creek, a station on the line of the Green Bay & Western railroad, about twenty-five miles. The money necessary for building purposes was also voted. It was decided to ask for bids for construction work immediately.

Engineer Barney McGinley of the Wisconsin & Northern will go to Shawano next Monday to set grade stakes and prepare for construction work.

The requests for bids state that the work must be completed by September 1st, 1916.

There is a rumor afloat also that the line may be extended to Appleton the coming winter, but that is unverified.

REAL ESTATE TRANSFERS

GAS COMPANY'S PARADE

The only parade circus day was that given by the Oneida Gas company. Manager W. E. Vaughan prepared a very attractive float on which a number of Lion water heaters were placed, also a gas range and a dining table set for a meal. The Great Lester acted in the role of a typical German chef and Lloyd Cain blossomed forth in his snappy Charley Chaplin make-up. The antics of both characters were side splitting.

The float was a clever advertisement for the Gas Company and spoke well for the enterprise of Mr. Vaughan.

To the Public

I am now ready to serve a good dinner for 25 or 35 cents. I have enlarged my place with five tables and a nice kitchen. Come in. I will treat you right. I will also keep open all night.

J. N. Menzies.

BETTER HIGHWAYS FOR WISCONSIN

The opening up of headquarters in Madison Monday by the Good Roads Association of Wisconsin means the launching of a state wide campaign for better highways and better highway legislation backed by a state wide organization. While the object of the organization will include every activity to secure better highways in Wisconsin, one of its primary purposes will be to develop legislation that will lead to continuous highways or trunk lines running north, east, south and west through out the state and connecting all the principal cities.

The present highway law has resulted in the wonderful improvement throughout the state of Wisconsin and has put the road work of the state on a far better basis. One fact, however, that is said to be becoming more and more apparent is that under the present methods our system is fragmentary—not broad enough in its scope or its results. Throughout the state in every county, sections of roads are being built which sections do not enjoin and form through highways. What is needed in the opinion of good roads advocates is some method by which the county may continue as the unit of efforts and the state as the unit of results.

The Good Roads Association of Wisconsin is really the first effort on a state wide basis. The officers of the organization are: President, Charles H. Jacobus, Wauwatosa, Mr. Jacobus being chairman of the highway committee of the Milwaukee county board; vice president, Elmer S. Hall, Green Bay; treasurer, Ernest J. Perry, Fond du Lac; secretary, William H. Reese; directors, A. R. Hirst, Madison, state highway engineer, and Messrs. R. W. Davis, Bangor; Charles Liehe, Chippewa Falls; William H. Reed, Racine; A. H. Zimmerman, Wausau. The executive secretary, who will be in charge of the headquarters in Madison, is Francis A. Cannon, former secretary of the Citizens' Business league of Milwaukee.

START MOVE TO CLEAN UP HURLEY

"Hayward, Hurley and Hell," a familiar expression in the pioneer days in Northern Wisconsin, now bids fair to lose its significance. Hayward has already lost the distinction, with the passing of the timber and the lumberjacks. But at Hurley, the lumberjacks have been supplanted by miners.

With 2,620 population, Hurley has fifty-six saloons and none of them shows any sign of going out of business because of lack of patronage.

But there is talk of starting a religious revival there. Similar movements have been started in the past but not a great deal of lasting good was noticeable. Those backing the movement, however, say they will stick till Hurley is "cleaned up."

HOTEL RATES SOAR

At a meeting of the majority of Rhinelander hotel men this week it was agreed to raise the weekly rates to permanent patrons. The new schedule increases board and room from \$4.00 to \$4.50 for double rooms and from \$4.50 to \$5.00 for single rooms.

Michael O'Malley, of the Soo House, stated to a New North reporter Monday that the raise becomes necessary owing to the advanced cost of all food stuff and the increase in operating expenses.

"For some time past we have been contemplating this move," said Mr. O'Malley "and now we are obliged to act if we want to see our way clear at all."

AT THE COZY

Aurora Fernandez, a poor Cuban girl, is persuaded against her will to become betrothed to Don Armada, a wealthy Cuban. She loves Pedro, a young fisherman who lives with his uncle Father Ventura and his sister Celida, who has been secretly stealing to Don Armada's villa, but is cast off by him on his engagement to Aurora.

Longing for a sight of Pedro, Aurora, disguised as a dancing girl goes to an inn where Pedro comes with other fishermen for a night's revelry. He does not recognize her as his "Lady of the Lily" as he calls her, but falls a victim to the charms of the dancing girl.

Celida, dying of a broken heart, confesses to Pedro and Father Ventura; and Pedro, to avenge Celida, summons all the fishermen in the village and leads them against Armada, in whose villa the wedding feast is being held. The guests fly in terror and Armada is wounded. Aurora alone remains undaunted, and Pedro, finding her recognizes not only his love of the tavern, but Aurora, and that she is the wife of Armada. Notwithstanding her pleadings not to kill her husband, he is about to strike when he sees that Don Armada is blind. This awakens his pity and he leaves the house.

Don Armada has an operation performed on his eyes which proves successful, but the physicians warn him that any shock may result in blindness for life. Aurora in the meantime, has been carrying on clandestine meetings with Pedro, and Armada hoping to find out who Aurora's lover is, tells her that the operation has been a failure. He intercepts a note from Pedro and locking Aurora in her room, stabs Pedro. He then returns to Aurora and she discovers that he has tricked her. He tells her what he has done, but the shock kills him. Aurora escapes and finds Pedro still alive. She takes him home where she watches over him, and, the crisis over, the lovers are reunited. Cozy Theater, Sunday, July 2.

YOUNG MAN IS TAKEN BY DEATH

Roy Gardner Warden was the son of Mr. and Mrs. Nelson G. Warden who reside near Roosevelt. Roy was employed at a garage in Woodruff. An apparently successful operation for appendicitis was performed and the young man confidently hoped to leave the hospital in a few days. But on Monday evening, June 19, he died suddenly and unexpectedly. He is survived by his parents, one brother, Amazo, and five sisters, Gladys, Rosetta, Eva, Winifred, Charlotte. One sister, Alice, preceded him into the great beyond.

Roy was a faithful Sunday school scholar at the Congregational church when as a boy he lived in Rhinelander. He died at the age of nearly twenty-one. His loved ones and many friends will greatly miss him.

The funeral services were held at the Congregational church on Wednesday afternoon by Walter C. Heyl, pastor, and the interment was in Forest Home cemetery.

NOTICE

A call is made for a Democratic meeting to be held in the city of Rhinelander, Tuesday, July 4, at 2 p. m., 1916, for the purpose of nominating delegates to represent Oneida county at the Democratic conference to be held in the city of Milwaukee, July 12, 1916.

Meeting to be held at City Hall.

GUARDSMEN WILL BECOME SEASONED

Blistered Feet And Sundurnt
Noses Will Be Their Lot
On The Border

Blistered feet and sunburned noses will be prevalent among the National Guardsmen now under orders within two days after they reach the border. The hardening processes will begin at once. It will continue until they are fit to duplicate the marches made by General Pershing's men on the trail of Francisco Villa.

Unless circumstances make it impossible some part of each command will go on a march each day. These marches will be made under conditions such as obtain in an active campaign as nearly as possible. The guardsmen probably will be started with a march of five miles carrying full kit and the regulation amount of ammunition. The distance will be increased as the men improve in condition until they are able to cover thirty miles a day.

Equal attention will be paid to conditioning the cavalry and artillery horses and pack mules. The Illinois and Wisconsin troops will be in luxury compared to the other guardsmen, if, as is probable, they are quartered near the camp at Fort Sam Houston now being used as a citizen's military training camp. The civilian camp will end June 30. The camp is a model one equipped with everything known to military science for the health and comfort of the men.

Conditions at Pledras Negras, opposite Eagle Pass, are being closely watched by staff officers. General Francisco Murguia has a strong force ready for instant action. In addition to the three batteries of field artillery which left for Eagle Pass Tuesday there are two regiments of infantry and one battery of field artillery already there. It is known that several large National Guard units will be shipped through to Eagle Pass at once.

Arrangements are being made for a central Red Cross supply station which will care for the eastern section of the American line. The western section will be supplied from a depot in El Paso.

An interesting discovery has been made regarding the transporting of troops for the United States government. On some of the lines only a fifty per cent fare need be paid by the government. This is because the federal government made large land grants in the early days to the railroads and stipulated in these laws that United States troops were to be carried at half fare. There are some railroads in Missouri where the troops must be carried free.

ALVIN SUTTON IS A MARRIED MAN

At St. Mary's church Thursday morning at 8 o'clock Rev. Fr. W. A. Beaudette officiated at the ceremony which united in the holy bonds of matrimony, Miss Castell-La Shorey and Mr. Alvin J. Sutton, both of this city. Attendants were Miss Clara Mintek and George Sutton and Miss Hattie and Joseph Dietrich. Following the wedding the party partook of breakfast at the residence of the bride's parents, Mr. and Mrs. Oliver Shorey, 726 Margaret street. Throughout the day friends of Mr. and Mrs. Sutton visited the home to extend congratulations and well wishes.

The principals of this happy event are two of Rhinelander's esteemed and popular young folks whose friends are legion. The bride is accomplished and possesses all the necessary qualifications for a kind and loving helpmate.

Mr. Sutton holds the esteem of all who know him. He is a meat cutter by trade and is rated as a first class workman. He at present has a good position at the Emmerling market.

Mr. and Mrs. Sutton are now on their honeymoon and upon their return to Rhinelander will commence housekeeping in a cory home fitted up by the groom on the south side. May they have a long and prosperous married life.

ARE ENFORCING STATE OIL LAWS

B. N. Moran, state oil inspector, with the cooperation of his district deputies, is directing strict attention to the enforcement of laws relating to the regulation and sale of oils, especially kerosene and gasoline.

C. H. Roepcke, district deputy here, says that all cases of violation will be prosecuted. Mr. Roepcke calls attention to the oil can law which reads as follows:

"Every person dealing at retail or wholesale in gasoline, benzine, or naphtha, and other like products of petroleum in this state, shall deliver the same to the purchaser only in barrels, casks, packages, or cans, painted vermilion red and having the word 'gasoline,' 'benzine,' and the name of such other like products of petroleum, plainly stenciled in English thereon. No such dealer shall deliver kerosene in a barrel, cask, jug, package, or can painted or stenciled as hereinbefore provided. Every person purchasing gasoline, benzine, naphtha, or other like products of petroleum for use or sale procure and keep the same only in barrels, casks, jugs, packages, or cans painted and stenciled as hereinbefore provided. No person keeping for use or using kerosene shall put or keep the same in any barrel, cask, jug, package, or can painted or stenciled as hereinbefore provided. Provided, however, that in case of gasoline, benzine, and naphtha, or other like product of petroleum being sold in bottles, cans, or packages, or any product that contains gasoline, benzine, or naphtha, or other like products of petroleum as a constituent part thereof, of not more than one quart for cleaning and similar purposes, it shall be deemed sufficient if the contents of such bottles, cans, or packages are so designated by a label securely pasted or attached thereto with the words 'gasoline,' 'benzine,' or 'naphtha,' 'unsafe when exposed to heat or fire' printed in bright red ink in letters not less than one-fourth inch in size. Any person violating any of the provisions of this section shall be punished by a fine of not less than five nor more than fifty dollars, or by imprisonment in the county jail not to exceed three months, or by both such fine and imprisonment."

JOHN EGAN DIES SUDDENLY MONDAY

John Egan, who has for the last year been employed as night clerk at the Alpine Hotel, passed away after an illness of six hours at St. Mary's hospital. Mr. Egan had been failing for the last month but was able to attend to his duties until taken to the hospital. Heart failure is given as the cause of death.

Mr. Egan had for many years made his home in Rhinelander and vicinity, being mainly employed in the lumber woods. He was a brother of Larry Egan, a former resident here now living in the west. He was sixty-one years of age.

The remains were taken to Wausau county, Mr. Egan's old home, Wednesday for interment.

BIG GUN SHOOT

Members of the Rhinelander Gun club will participate in a registered shoot to be held under the auspices of the Wausau Gun club in Wausau, Saturday and Sunday, July 8 and 9. Representatives of gun clubs from all parts of the country will enter in the events. Several professional shots will also give exhibitions of their skill. A large sum will be awarded in cash prizes to winning contestants.

HENRY CANNON IS SHOT

Henry Cannon, an Ironwood hotel man who is known to many Rhinelander people, was shot and seriously injured Tuesday. John Kolan, a miner, is alleged to have committed the crime. Five shots were fired at Cannon, only one taking effect.

Kolan was bound over to circuit court, his bonds were fixed at \$5,000. Family trouble is said to be the cause for the shooting.

CO. L BROUGHT 106 TO CAMP

Camp Douglas, Wis., June 23.—Drills were the order of the day at Camp Douglas today. The militiamen were put through close border drills by company and by battalions of four companies. Recruits who had not been equipped with uniforms were left with non-commissioned officers and given the rudiments of drill. The largest number of men in the history of Camp Douglas are encamped here now. The first regiment has one thousand two hundred twenty-nine men and the second one thousand five hundred and thirty-six, the third infantry has one thousand one hundred and ninety. Company E, second regiment, Fond du Lac, is the pride of the camp, being the only company recruited to full war strength. The Fond du Lac company went the war department one better than the required number of 150 men and brought 153 to camp. Company K, first regiment, Milwaukee, is second in number of men with 148 and Company G, Appleton, third with 140 men. Company F of Oshkosh is tied for fourth place with Company G of the first regiment of Madison with 128 men, and Company B, Oshkosh has sixth place cinched with 122. Shelbygan has seventh place with 119 and Beloit next with 103. Rhinelander ninth with 106 and Wausau tenth with 100 even.

The troops will be drilled in company and battalion formations until their work is satisfactory when they will turn out in regimental formations. The men are being supplied with excellent rations and there has not been a grumble in camp. Major Edward T. Markle of the quartermaster corps gave the following figures of the amount of food necessary to feed the men three days.

Fresh beef, 10,500 pounds
Bacon, 3,500 pounds
Potatoes, 12,000 pounds
Soft bread, 12,000
Coffee, 1,002 pounds.
In addition there is one half ounce of butter for each man each day as well as prunes, peaches, rice, beans, tomatoes and other similar items.

MAY ORGANIZE AN INDIAN COMPANY

There is a possibility that northern Wisconsin will send an Indian company to the Mexican border if the plans of an Odonah Indian, James White by name, work out favorably. The Ashland Press tells of White's intentions:

If the hopes of James White, of Odonah, are realized he will be proudly leading a regiment of Indians to the Mexican border, before many moons. James has been stirred up by the news that a large number of Sioux Indians have joined the armies of Uncle Sam, and he is determined to draw his fellow "Reds" of the Chippewa tribes to the colors.

White is a splendid type of an Indian brave. He is husky and will make an excellent soldier. His eyesight is keen and he can handle a rifle like a veteran. A regiment of Indians of his calibre would set any troop of greasers to flight.

Filled with an incentive to fight for his flag, White has been combing the city for a recruiting office, but sad to say, he has found none. He went to the old armory, where the members of the Machine Gun Company have drilled before leaving for Camp Douglas. The doors were bolted, all sign of life has gone with the boys. He then retraced his steps to the postoffice, but he was told that no recruiting officer was stationed there.

This Indian declares that he is going to Odonah and try to get enough of his fellow "Reds" to organize a company. That there are many qualified braves who will enter the service, is his belief, and he is determined to find them. The visions of a captaincy for him, and the honors that will be his, when the heat of the fray is over, have risen before him and he is spurred on to fight for the land of the free and the home of the brave.

FOLEY STILL ON EARTH

Happily there was no truth to the story circulated about the city Sunday that Frank Foley, night clerk at the Rapids House, had suddenly expired. Frank much regrets that anyone should take him for a "dead one," especially at this time when his country may need him to settle that little argument down in Mexico.

Stopped the Swearing.

When Sir Richard Hawkins' ship, the Delaty, was off the Guinea coast it caught fire and had a narrow escape from destruction. The sequel, as told by John Barnett in "Fighting Admirals," was curious: "The men thanked God for their deliverance and as a mark of gratitude took occasion to banish swearing from the little fleet. By general consent it was ordained that a palmer, or ferrule, should be carried by any one who was taken with an oath and that he should give the next who swore a stroke with it. At the end of the day he who had the ferrule received three strokes from the captain or the master. Within three days there was no more swearing."

Irvin Cobb on Kentucky.

In the American Magazine Irvin B. Cobb, writing on his native state, Kentucky, says:

"It has been alleged, and not without some color of plausibility, that Kentuckians are belligerent by nature. We do not deny it. The crest of our state shows two gentlemen in swallow tail coats, holding each other firmly by the right hand. The intent of the picture is plain. So long as they both hold hands neither can reach for his hankie. The motto which goes with the device is, 'United we stand, divided we fall.' By an oversight, the designer left off the word 'or' from the end of the phrase. It has been deemed advisable to add it here."

Handel as a Child.

George Frederick Handel, the son of a Saxon barber and valet, was only five years old when his "fingers wooed of the melodies" from the spirit, which a good natured aunt had smuggled for him into an attic, so that no sound of it might reach the ears of his father. At eight his playing so astonished the electors of Saxony that his father was compelled to withdraw his opposition and allow the genius of the boy to have fair play. And before he had reached his twelfth birthday young Handel was known throughout Germany as a brilliant composer and virtuoso at the court of the emperor.—London Spectator.
